SUMMARY

Backend and AI engineer with 8+ years of experience who loves teaching and writing about how software works. Co-author of a book, technical blogger, mentor on Codementor (142 sessions, 5.0 rating), and hackathon winner and judge. Builds and writes about AI agents, retrieval, and MCP. Moving into developer relations to spend more of my time helping developers succeed.

WRITING AND CONTENT

Co-author, Amazon Sumerian by Tutorials

2020 | Kodeco

- Co-wrote a book on building 3D, AR, and VR scenes with Amazon's Sumerian engine.

Technical blogger, Medium

2026 | 672 followers

- Vector Databases for RAG: What's Actually Happening Under the Hood (Technology Hits)
- I Added QMD to Contexto for Better Agent Context
- The State of Agent Memory Storage, Harness Engineering for Dummies, and Building a Stateful AI Travel Agent with LangGraph
- Earlier posts published on HackerNoon and Virtual Reality Pop

Photography, Pexels

Ongoing | Public

- 170,000+ views on photos I publish for free use.

TEACHING AND MENTORING

Mentor, Codementor

Remote | 2020 – 2022

- 142 one-on-one sessions, 5.0 rating across 70 reviews. Reviewers describe me as “good at explaining why and how the code works” and “very knowledgeable and patient”.

Mentor, Clickpost and university students

India | 2018 – Present

- Mentored junior developers at Clickpost, and mentor students from my university on job interviews.

COMMUNITY AND OPEN SOURCE

Google Campus Ambassador

New Delhi, India | 2018

- Selected as the Google Campus Ambassador for my university, the only student chosen from it.
- Ran workshops for almost 500 students over a month.

Contexto (open source OpenClaw plugin)

Network School | 2026

- Added QMD-powered search over a local knowledge folder, with Obsidian sync, so agents retrieve relevant notes instead of relying only on chat memory. Wrote up the design and how QMD works.

Hackathons

India, Singapore | 2014 – 2018, 2026

- Took part in many hackathons from 2014 to 2018 and won several, including 1st place at AngelHack Delhi (Team Arsenic, AR developer).
- 3rd place, GMI Cloud x Z.ai Singapore Hackathon. Built MakanMap, a live map of Singapore hawker stalls with AI-generated multilingual marketing copy.
- Judge and mentor, AI Builders hackathon at the National University of Singapore.

Network School

Malaysia | One month

- Spent a month building in the Network School community. Wrote a review of the experience.

PROJECTS

- **Scratchpad**: agentic AI app for brainstorming and content creation (LangChain, LangGraph, Langfuse, DeepEval).
- **FluxBox**: macOS menu bar command center built with Rust and Tauri.
- **TVBox**: self-hosted personal streaming platform (Docker Compose, Python, rclone).
- Full list at raunaqness.com/projects.

ENGINEERING EXPERIENCE

Independent AI Engineer

Remote | Oct 2025 – Present

- Consulting and hands-on delivery of RAG chatbots and multi-agent apps using Python, LangChain, LangGraph, and FastAPI.

Aptos India | Machine Learning Engineer

Bangalore, India | Jan 2023 – Sep 2025

- Architected a Kubernetes-native ML orchestration control plane for a platform **serving 100+ global retailers**.
- **Cut cloud compute costs 60% (about USD 240K per year)** and improved processing SLAs by 35% on GCP pipelines.
- Built an enterprise RAG support assistant with prompt versioning, evaluation, and monitoring, **reducing hallucinations by 35%**.

Turing.com | Senior Software Engineer

India (Remote) | Apr 2022 – Dec 2022

- Built Airflow ML pipelines for ingestion, training, validation, and deployment. Standardized CI/CD and model versioning, **cutting deployment time by 60%**.

Clickpost Pvt. Ltd. | Senior Software Engineer

Bangalore, India | Jul 2018 – Apr 2022

- Built a cash reconciliation platform **for 1,000+ enterprise customers, cutting reconciliation time by 95% (about 2 days to minutes)**.

SKILLS

Python, FastAPI, Django, SQL, LangChain, LangGraph, RAG, vector databases (Pinecone, pgvector, Qdrant), MCP servers, Langfuse, DeepEval, Kubernetes, Docker, GCP, AWS, Terraform, Kafka, Redis, PostgreSQL, Rust (Tauri), Git and GitHub, CI/CD

EDUCATION

Indraprastha University | B.Tech. – Computer Science Engineering

New Delhi, India | 2014 – 2018
